CREATE A FICTIONAL STORY FROM A GRID OF POSSIBILITIES

Roll a Story

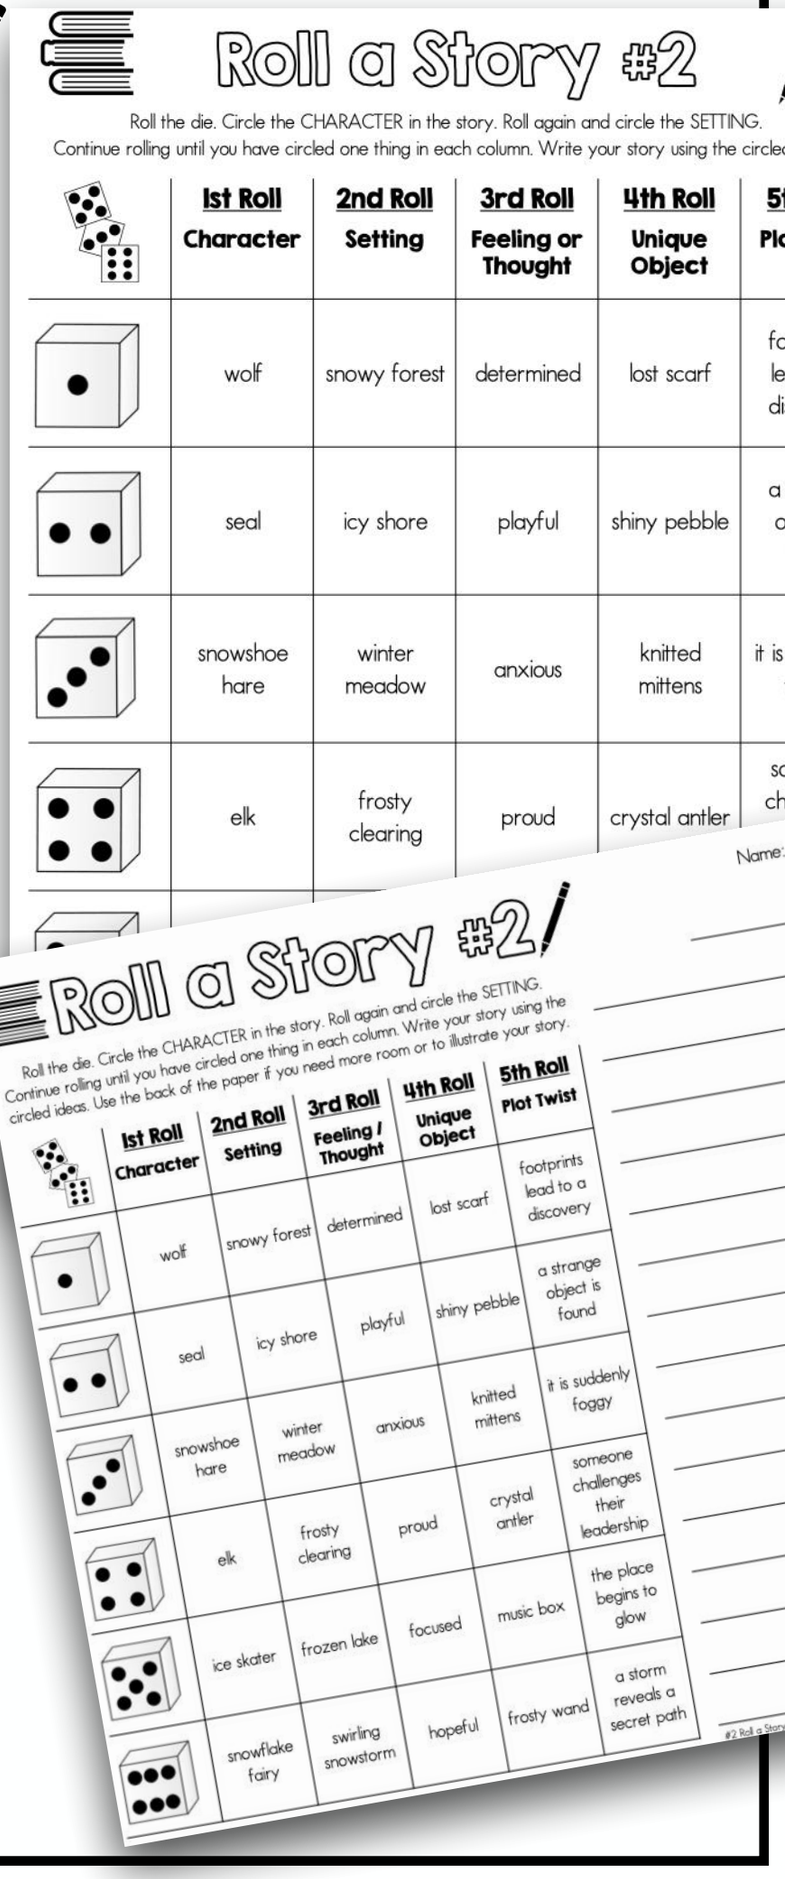

HOW TO USE IT

There are many ways to use Roll a Story with your students. Use the pages in a literacy center or use them with early finishers. Roll a Story can also be a fun introduction to your fictional writing unit!

Each worksheet is designed to be used multiple times as there are many possible combinations for each page. Consider printing full page sheets and laminating them. While students are encouraged to use all five elements, you can also make it easier by letting students choose three or four elements to use in their story.

ENHANCE AND EXTEND

Students can enhance and extend Roll a Story using the graphic organizers and writing pages. Have students create several Roll a Story worksheets and then choose one to turn into a larger piece of writing.
