REFLECTION

Week of

Name: Rylle

MORPHOLOGY MORNING WORK
Week 28: Graph Means Write

MONDAY: MEET IT

A **combining form** is a Greek word part that carries meaning and joins with other word parts to build a word. The combining form **graph** means write or draw. In auto + graph = autograph, auto means self, so an autograph is a name you write yourself.

Circle the combining form graph inside each word.

autograph photograph graphic telegraph

Sort each word into the correct column: **biography, giraffe, geography, grape, graphics, grasp**

Has the form graph	No form graph
geography	biography
grape	giraffe
graphics	grasp

Watch out! A word truly has the form only if it passes both tests: It contains the exact letters g-r-a-p-h, in order, AND it carries a write or draw meaning.

Turn & Talk: The gray tip inside your pencil is called graphite. Graph means write or draw. Why do you think it has graph in its name? Tell a partner how the form helped you guess.

TUESDAY: BREAK IT

Break each word into its word parts. The graph is done for you. Some words also have a suffix you already know!

Word	Word Part 1	Word Part 2
autograph	auto	graph
paragraph	para	graph
photograph	photo	graph
telegraph	tele	graph
autographed	auto	graphed
photographs	photo	phs

Turn & Talk:
Break apart **photographer.** How many word parts does it have? Name each one. Hint: It ends with the suffix meaning one who.

Suffix
-ed
-s

Photograph has two word parts. What does photo (light) tell you? What does graph tell you? Put the two meanings together.

Photo means light

graph means write or draw.

photograph = to write or draw with light

Turn & Talk: Say graph. Say autograph. What does auto (self) change about the meaning?

WEDNESDAY: BUILD IT

Choose word parts to build real words. Write as many as you can. Not every combination makes a real word! Keep graph in every word.

Word Parts	Form	Suffixes
auto (self)	graph	-s
tele (far)		-ic
photo (light)		-ed
		-ing
		-er

1. autograph
2. autographs
3. photographic
4. telegraph
5. telegrapher
6. photograph
7. photographing
8. telegraphic

THURSDAY: USE IT

Choose the correct word to complete each sentence.

At the book signing, the author wrote her (autograph / telegraph) on the first page.

Mr. Lee used his camera to take a (photograph / paragraph) of our whole class.

Our teacher asked us to write one more (photograph / paragraph) to finish the story.

Write your own sentence using a word with the combining form graph.

I took a photograph of the sunset.

Circle the word that means a picture drawn with light.

paragraph (photograph) autograph graphic

Turn & Talk: How does knowing that graph means write or draw help you understand the word autograph? Tell a partner in one sentence.

Make sure you know that autograph is a name you write.

FRIDAY: PROVE IT

Circle the word that does not have the form graph. Then tell why.

paragraph (giraffe) photograph autograph

Why? It does not have graph in it.

Quick Checks:

a. Circle the combining form:
photograph

b. Add graph to **auto** (self) to make a word that means a name you write yourself: autograph

c. True or false: **Grape** contains the graph. True

d. Break **photographs** into its three word parts:
photo + graph + s

Follow each clue. Write the word on the line.

1. Start with auto. Add auto (self) to the front to make a word that means a name you write yourself. autograph
2. Add -ed to show it happened in the past. autographed
3. Change auto to tele (far) and drop the -ed to make a word for an old way to send messages from far away. telegraph

Write one sentence using any word you built this week. Circle the combining form graph in your word.

The photographer autographed my book.

Turn & Talk: In your own words, teach a partner what a combining form is. Use one word with graph.

It is a word part that means write or draw. For example, photograph.

Bonus: Word Hunt! Find two words with the combining form graph in a book you are reading or around the room. Write each word and circle the form graph.

1. graphic
2. paragraph

REFLECTION

I put forth my best effort:

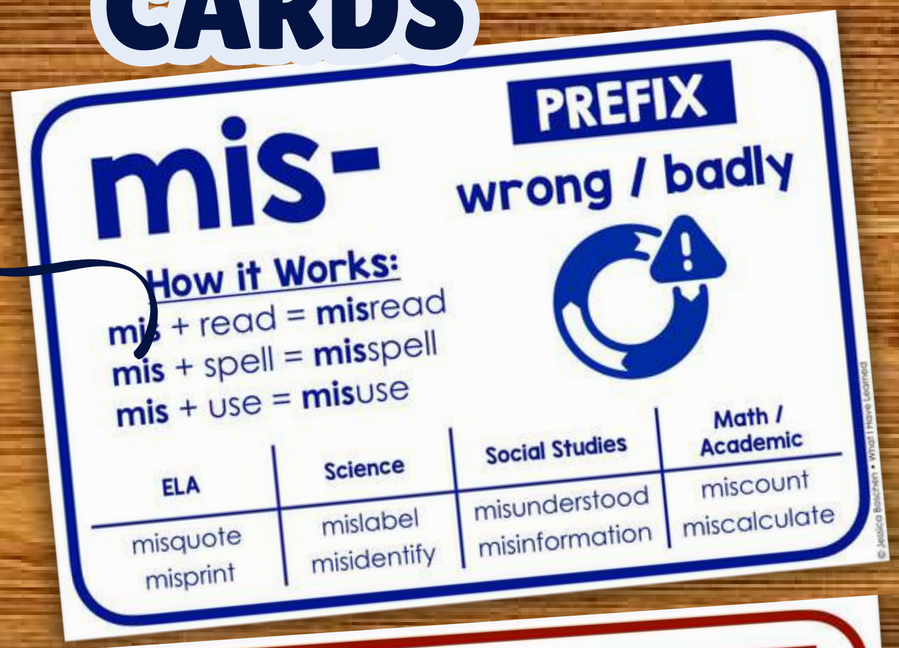

1 2 3 4 5

I understand that the combining form graph means write or draw. I can find graph inside a longer word and use it to figure out the word's meaning.

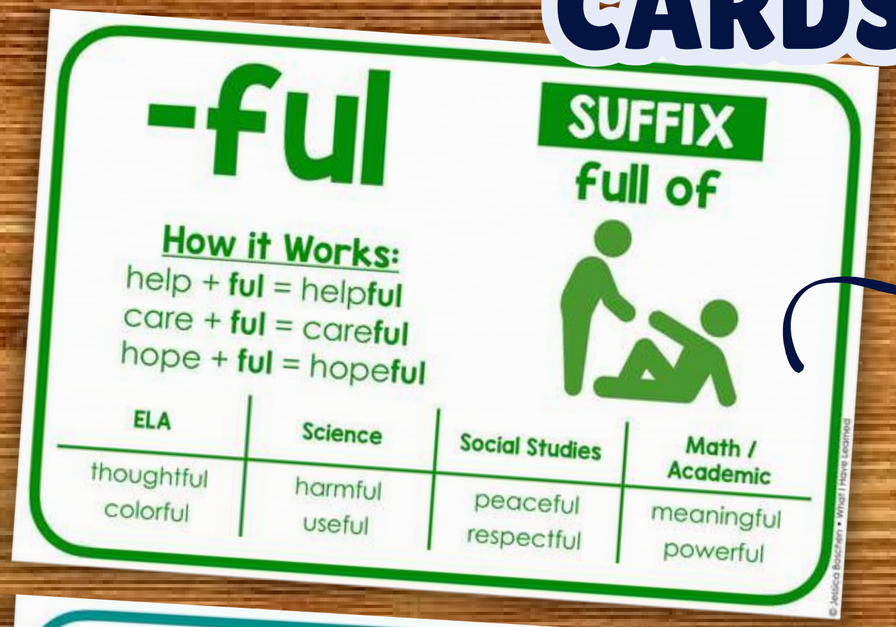

??? I need more help. | I'm getting there. | I understand it!

MORPHOLOGY IN CONTEXT

SECTION A: BREAK IT, BLEND IT, PROVE IT

READING PASSAGE

SECTION C: COMPREHENSION

SECTION B: VOCABULARY

MORPHOLOGY IN CONTEXT
The Form therm Means Heat

READING PASSAGE The form therm means heat. As you read, underline the words built with therm.

Sensing and Using Heat

(1) The Greek form therm means "heat." Like the other forms you have studied this year, it never stands alone; it always joins another form or ending to build a word about heat.

(2) In Set 2, you learned that geo means earth. Join it with therm and you get a geothermal plant, a power station that uses Earth's heat deep underground and turns it into electricity for homes and businesses.

(3) In many houses, a thermostat, joining therm with stat, a form meaning to hold or stay steady, keeps the temperature comfortable without anyone touching a dial. It senses when a room grows too warm or too cool and switches the heat or the air conditioning on and off by itself.

(4) Heat can also be dangerous. Hikers caught in cold, wet weather risk hypothermia, joining hypo, meaning under or below, with therm, a dangerous drop in body heat that can turn deadly if it is not treated quickly. Doctors sometimes use a special camera to take a thermal-imaging photograph, showing heat itself as glowing colors rather than ordinary light so they can see exactly where a patient's body is losing heat.

Glossary: temperature = a measurement of how hot or cold something is; imaging = a way of producing a picture of something, often using a machine

SECTION A — BREAK IT, BLEND IT, PROVE IT

Find each therm word in the passage. Break it into parts, name both forms and what each one means, determine a meaning, and then prove it with a line from the text.

Word 1: geothermal
- Parts: geo + therm + al
- Form 1 geo means earth
- Form 2 therm means heat
- My meaning of the whole word: relating to heat from the Earth
- Prove it (copy the passage clue): "a power station that taps the Earth's heat deep underground"

Word 2: hypothermia
- Parts: hypo + therm + ia
- Form 1 hypo means under or be
- Form 2 therm means heat
- My meaning of the whole word: dangerously low body heat
- Prove it (copy the passage clue): dangerous drop in body ... can turn deadly"

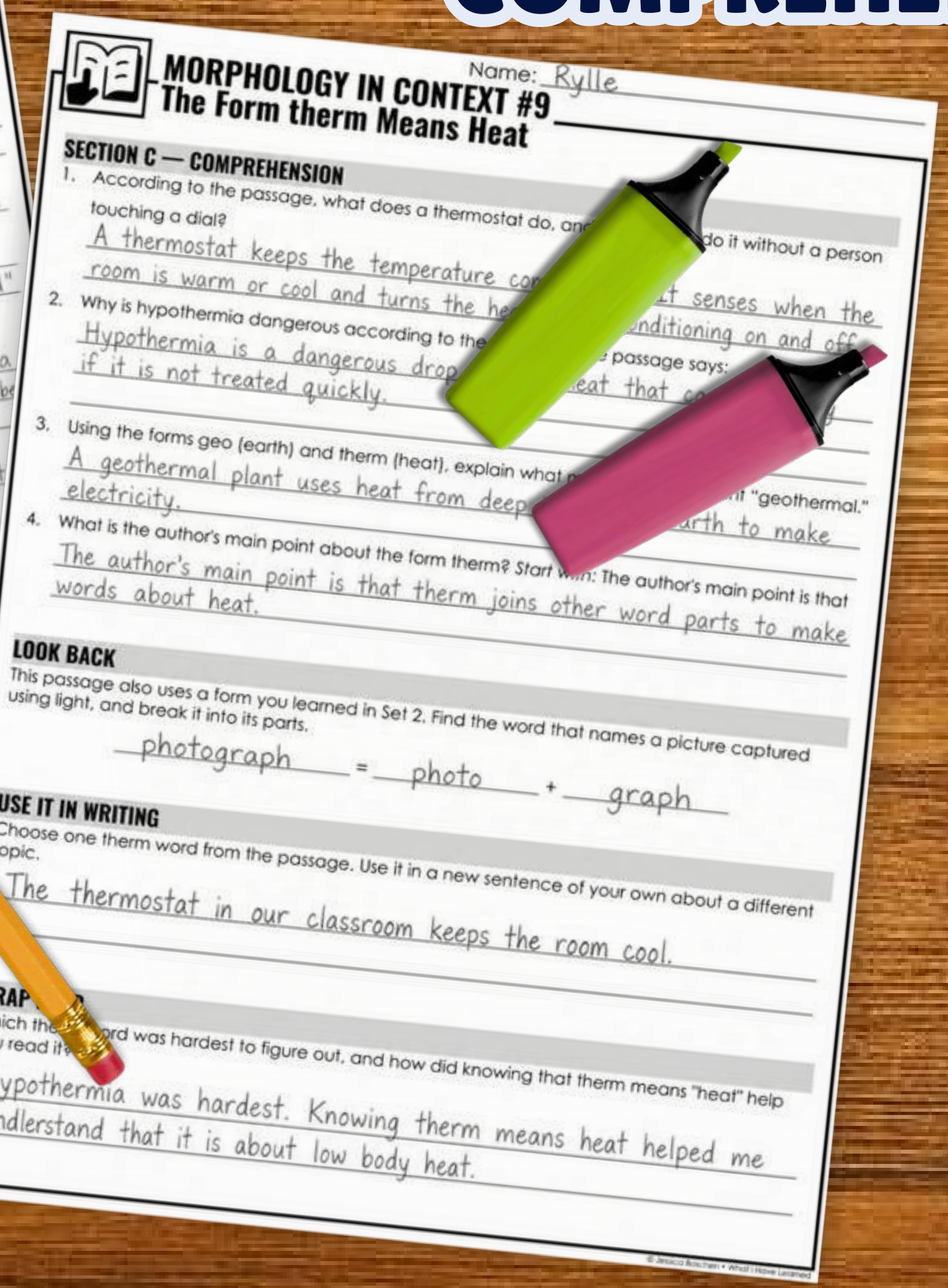

SECTION B — VOCABULARY Write each word in a blank.
- a container built to keep liquids hot or cold for a long time thermos
- a device that senses temperature and controls it automatically thermos
- relating to or caused by heat (used in science) thermic
- Some birds ride rising columns of warm air, called thermal currents, to so... hout flapp...

Word detective: A word belongs to the therm (heat) family only if it holds t-h-e-r-m an... es the ... the one that belongs: explain why the other does nc exothermic (a reaction that releas... t) or (treatm... for an illness).

The ...apy does not belong because it does not contain therm ...

Build a word: Therm means "heat"; meter, which you'll study soon, means to measure. Put ther... the tool a nurse uses when you feel you might have a fever. Write the word and what it mean...

Word: thermometer It means: a tool that measures temp...

Name: Rylle

MORPHOLOGY IN CONTEXT #9
The Form therm Means Heat

SECTION C — COMPREHENSION

1. According to the passage, what does a thermostat do, an... touching a dial? ...do it without a person
A thermostat keeps the temperature co... room is warm or cool and turns the he... ...t senses when the ...nditioning on and off.

2. Why is hypothermia dangerous according to the ... ...e passage says:
Hypothermia is a dangerous drop ... if it is not treated quickly. ...eat that ca...

3. Using the forms geo (earth) and therm (heat), explain what ... ...it "geothermal."
A geothermal plant uses heat from deep ... electricity. ...arth to make

4. What is the author's main point about the form therm? Start with: The author's main point is that
The author's main point is that therm joins other word parts to make words about heat.

LOOK BACK
This passage also uses a form you learned in Set 2. Find the word that names a picture captured using light, and break it into its parts.

photograph = photo + graph

USE IT IN WRITING
Choose one therm word from the passage. Use it in a new sentence of your own about a different topic.

The thermostat in our classroom keeps the room cool.

WRAP ...
Which th...rd was hardest to figure out, and how did knowing that therm means "heat" help you read it?

Hypothermia was hardest. Knowing therm means heat helped me undlerstand that it is about low body heat.

MORPHOLOGY WORD BUILDING

SECTION A: CREATE

Name:

MORPHOLOGY WORD BUILDING
The Root Aqua Means Water

LATIN

SECTION A — CREATE
Create words using the base and at least one suffix

Word Parts

Root: aqua

Word Parts: rium, tic, marine, naut

aquarium	a tank or building for water animals
aquatic	living or growing in water
aquamarine	a blue-green color like water
aquanaut	a person who explores underwater

SECTION B — SORT
Choose four words you created above. Sort the words into parts of speech. Use a dictionary if you don't know the part of speech.

Noun	Adjective
aquarium aquanaut	aquatic aquamarine

SECTION C — WRITE
Pick one word and use it in a sentence. Then, ask a partner: "Does my sentence make sense?" ☑ PARTNER

The aquanaut explored the ocean in a small submarin

SECTION D — COMPARE
Both mean water — one Greek, one Latin. Look at hydrant and notice a pattern in the words that use these roots?

usually come at the beginning of a word and show that the word is connected to water.

Bonus: Aquanaut and both end in -naut. "sailor" or "traveler." underwater and ace. What do monaut trave

Grade 8

Name: Rylle

MORPHOLOGY WORD BUILDING
The Root Aud Means to Hear

LATIN

SECTION A — CREATE
Create words using the base and at least one word part.

Word Parts

Root: aud

Word Parts: ible, ience, ition, itory, itorium, io, it

inaudible	unable to be heard
audible	able to be heard
audien	a group of listeners
audit	a tryout where someone is heard
au	related to hearing
m	a room
dit	be heard
	and check

SECTION B — SORT
Choose six words you created above. Sort the words into parts of speech.

Noun	Verb	Adj
audience audition auditorium	audit	audible auditory

SECTION C — WRITE
Pick one word and use it in a sentence. Then, ask a partner: "Does my sentence make sense?" ☑ PARTNER CHECK

The audience listened quietly to the school play.

SECTION D — COMPARE
How is audible different from inaudible? What does the prefix in- do to the meaning?

Audible means it can be heard. Inaudible means it cannot be heard. The prefix in- changes the word to its opposite.

Bonus: An audiobook lets you listen to a story instead of reading it. It pairs aud (to hear) with the whole word book, the same way port pairs with air, sea, and car. Can you think of another word that pairs aud with a whole word like that?

WAYS TO USE IN THE CLASSROOM

- **Morning Work -** Start the day with consistent word-part practice.
- **Small Groups-** Target vocabulary, decoding, and word-analysis skills.
- **Literacy Centers -** Reinforce morphology through independent or collaborative activities.
- **Review & Enrichment -** Extend learning with games, word building, and passage activities.

YOU WILL LOVE THIS BECAUSE

YEARLONG WORD STUDY

Provides consistent morphology practice throughout the school year, building vocabulary knowledge and independent word analysis.

MULTIPLE LEARNING FORMATS

Combines visual references, reading passages, word building, daily practice, and games for varied learning experiences.

FLEXIBLE CLASSROOM USE

Supports morning routines, literacy centers, independent practice, small groups, intervention, and engaging vocabulary review activities.

My passion is making learning accessible to all students. I love scaffolding learning, breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.

What I have LEARNED
