TEACHERS LOVE IT!

"Great for use with my students in small groups with teacher and for independent strategies groups (helps keeps those kiddos focused without me)

Kristy P.

I keep these handy during my small group instruction time and they help make sure our discussions stay focused on key comprehension tasks.

Sheila B.

My passion is making learning accessible to all students. I love scaffolding learning, breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
