Blending cards

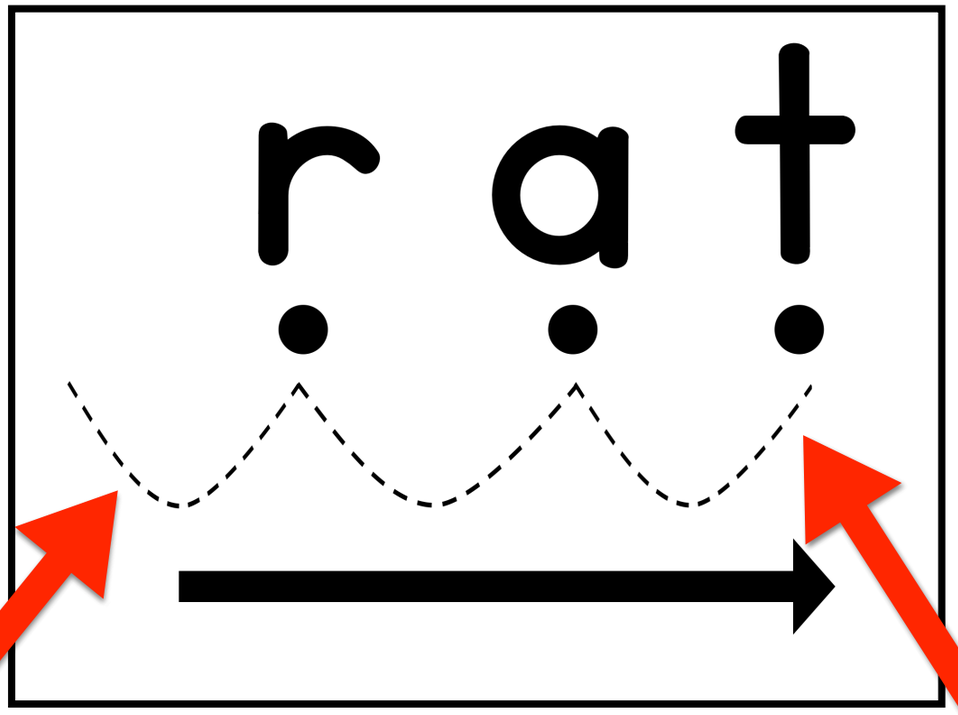

OVER 1000 WORDS

BUNDLE

The cards are set up so that students:

1. say the sounds (segmented)
2. blend the sounds
3. say it fast

continuous sound

If the beginning and ending sounds are <u>continuous sounds</u>, the blending dotted lines start and end <u>before and after</u> the letter to show it's a continuous sound.

stop sound

If it's a <u>stop sound</u>, the blending line starts and stops <u>at that sound</u>. When teaching students to <u>blend the sounds</u>, emphasize the continuous flow of the sounds. Stop sounds will be quickly blended with vowel sound next to them.

Phonics Patterns Included in the BUNDLE

- Short Vowel CVC Words
- Nonsense CVC Words
- Digraphs for Short Vowels
- Decodable Sight Words
- R Blends for Short Vowels

WHAT TEACHERS SAY ABOUT THE BLENDING CARDS

★★★★★ Extremely satisfied

These are amazing! We've really been working hard on blending words after coming back from Winter Break and these were just what I was needing for small group. I love that they have the dotted lines to help students know to blending the sounds together. I also love that it shows students which sounds are continuous and which are closed. Thank you so much!

★★★★★ Extremely satisfied

My students loved having opportunity to be engaged with hands on learning instead of just a worksheet or a flash card. They were able to visualize and the motions of actually following the decoding process helped tremendously!

★★★★★ Extremely satisfied

I an a retired Reading Specialist, and I use these materials for tutoring. I will definitely use them in my intervention lessons (once we go back in-person). Love how the students are able to trace left to right as they point-sound-and blend! When I handed the cards to my students, they automatically started sweeping their finger without prompting! Win-Win! Thank you!

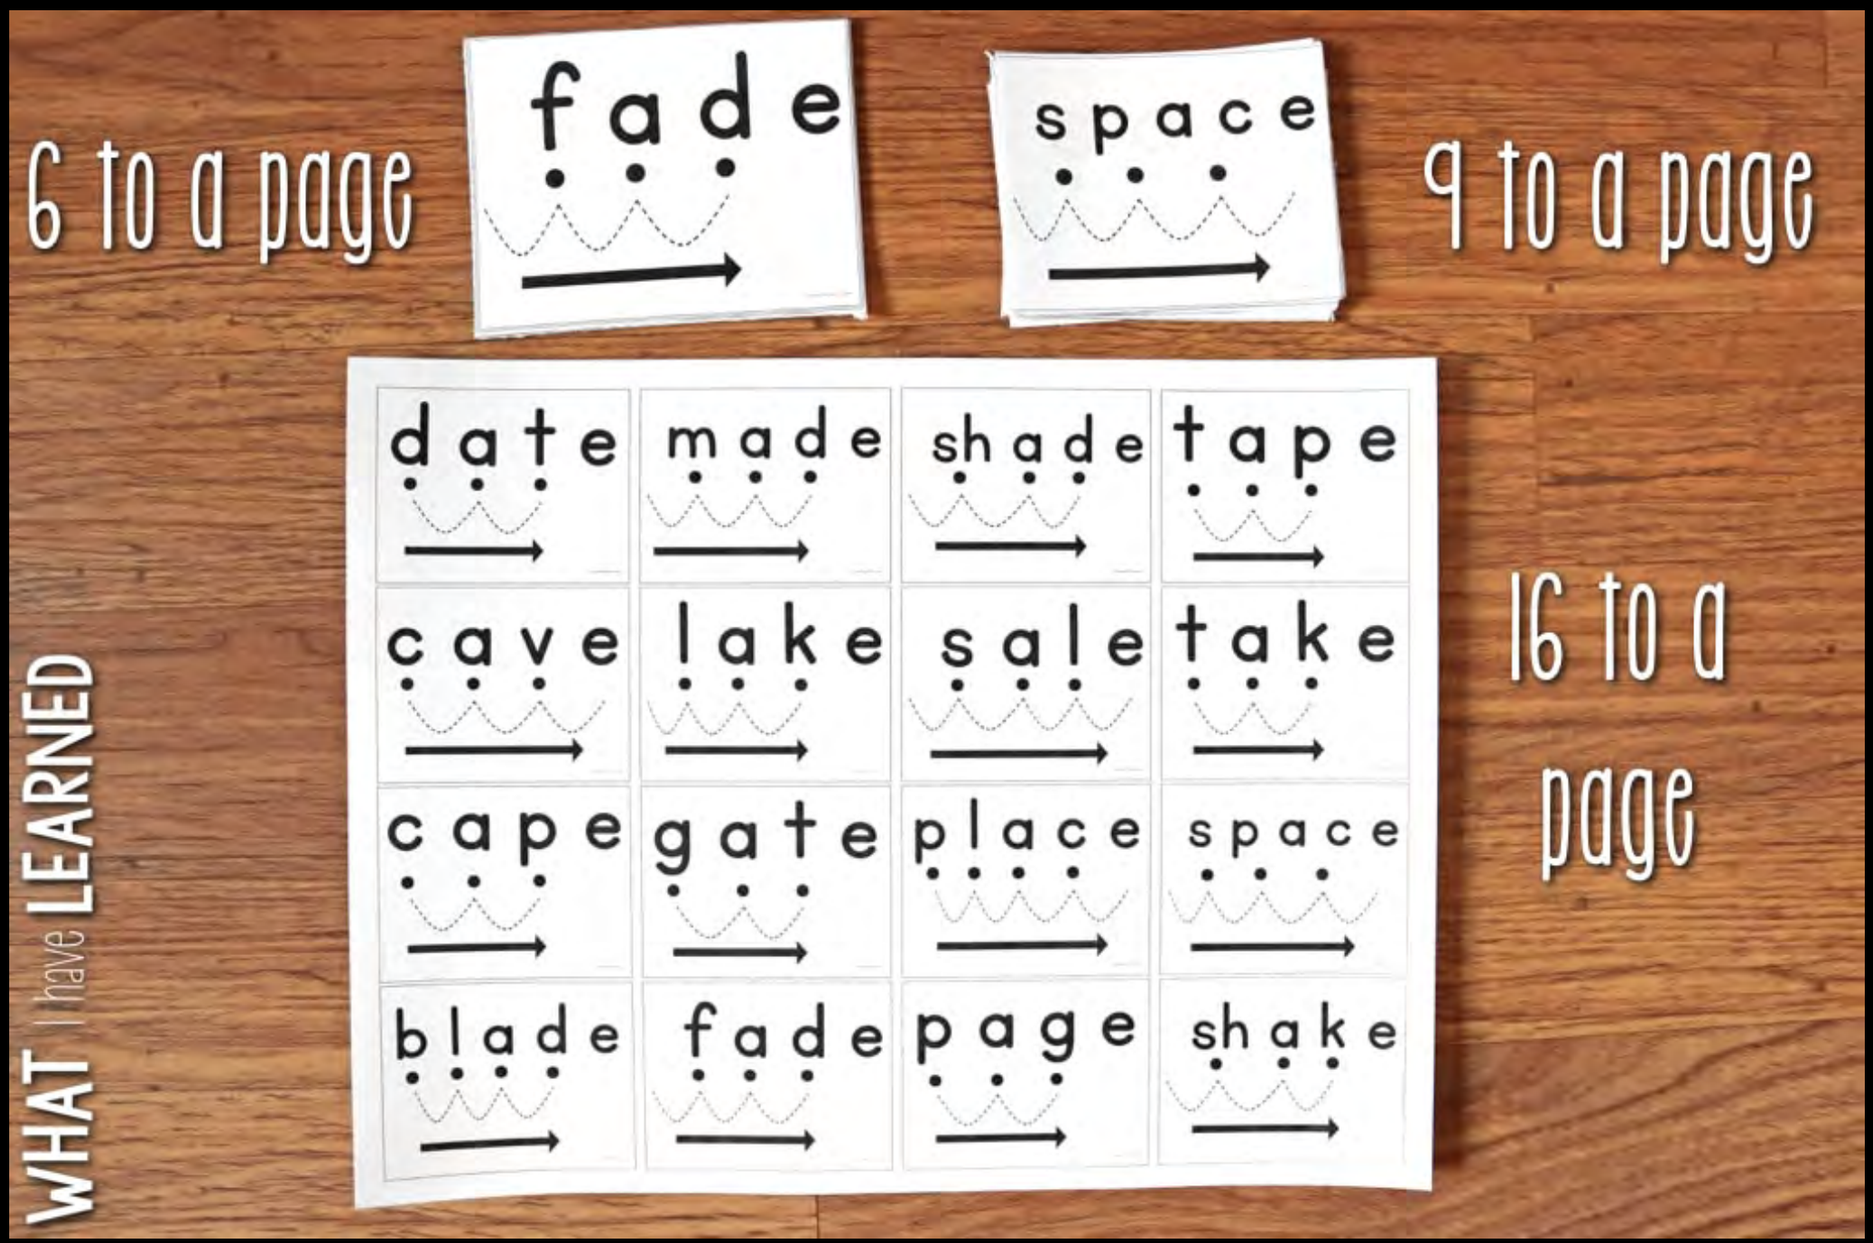

★★★★★ Extremely satisfied

This is by far the best small reading group resource I have ever purchased. I printed the flash cards four to a sheet on different colored card stock to help be organized. You can print 10 to 12 slides on one paper so students have words in front of them to decode along with flash cards. Perfect for at home practice as well.

I love and students enjoyed the decoding slide show and game matching word to a picture. This product helps you be prepared for reading small groups. I highly recommend this product for all reading teachers.

PRINTING IDEAS

Print the blending cards in any size.
Here are a few example sizes.

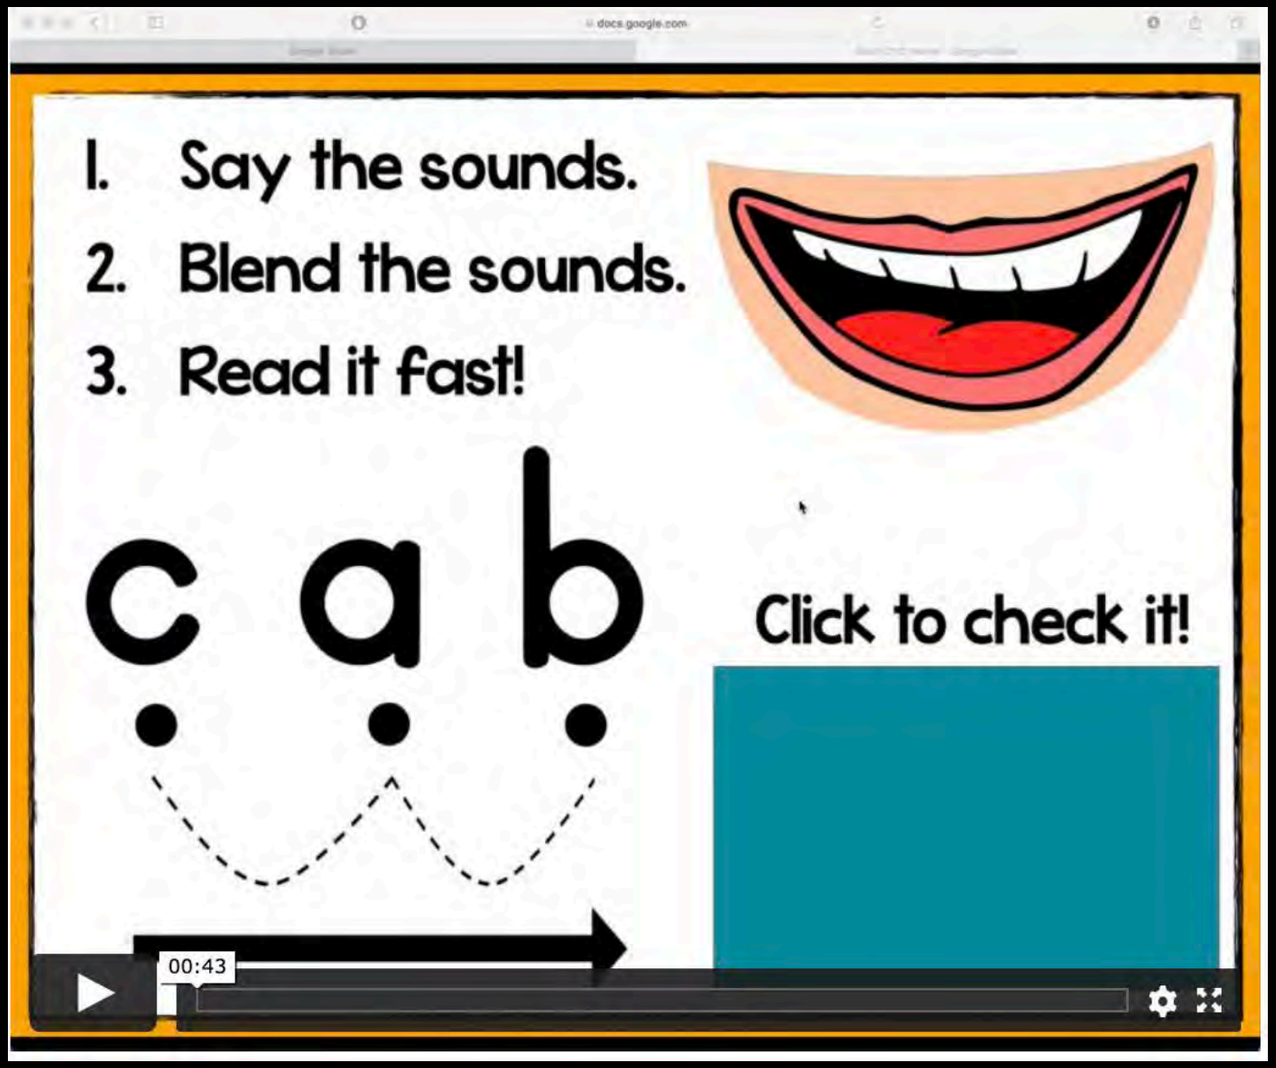

Click here for printing instructions

print on colored paper, hole punch and add rings
