WHY USE THIS RESOURCE?

These activities give students practice breaking apart and reading two-syllable words. Perfect for students moving beyond CVC words.

YOU WILL LOVE THIS BECAUSE

Builds Decoding Confidence

Students learn to chunk multisyllabic words, empowering them to tackle larger, unfamiliar vocabulary with accuracy and ease.

Explicitly Teaches Syllable Patterns

Targets open and closed syllables in VCCV, VCV, and VCCCV patterns for structured, research-based phonics instruction.

Perfect for Differentiated Groups

Use across tiers—ideal for small groups, RTI, intervention blocks, or independent literacy centers.

TEACHERS LOVE IT!

"This is a great supplemental resource when teaching syllabication! I love that it aligns with the SOR and I didn't have to make anything! "

Jen T.

"This is exactly what I was looking for. I am glad I came across this resource. I recommend getting this product to use in your classroom."

Meredith S.

My passion is making learning accessible to all students. I love scaffolding learning. Breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
