Teacher Notes

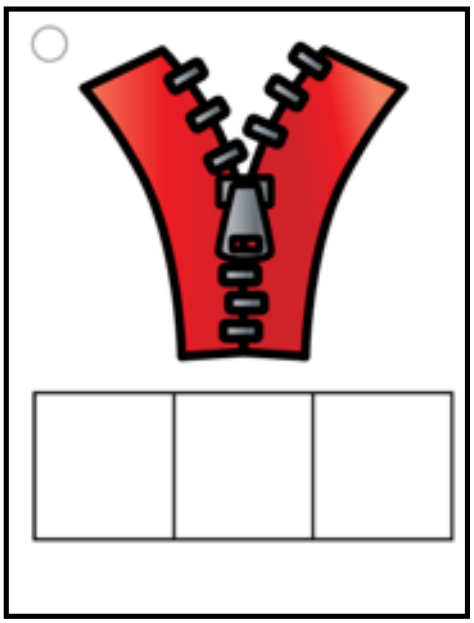

These Phoneme Blending and Segmenting Cards for Phonemic Awareness help students work with common kindergarten cvc words. The cards come in two versions. Each version comes in color and black and white.

Version 1 is with Elkonin Boxes or Sounds Boxes. In this version, students use manipulatives to move into the box for each sound.

Version 2 is with blending cues. The blending cues match my Phonics Blending Cards without pictures and have three prompts: dots for segmenting, looped lines for blending, and an arrow for saying it fast!

All cards include a circle for a hole punch. Put cards on a ring for easy access and review.
