Science Exploration Activity

- Student & Teacher Directions for Bird Beak Activity
- Recording Table Worksheet
- Differentiated Comprehension Questions + MORE
- Printable & Digital

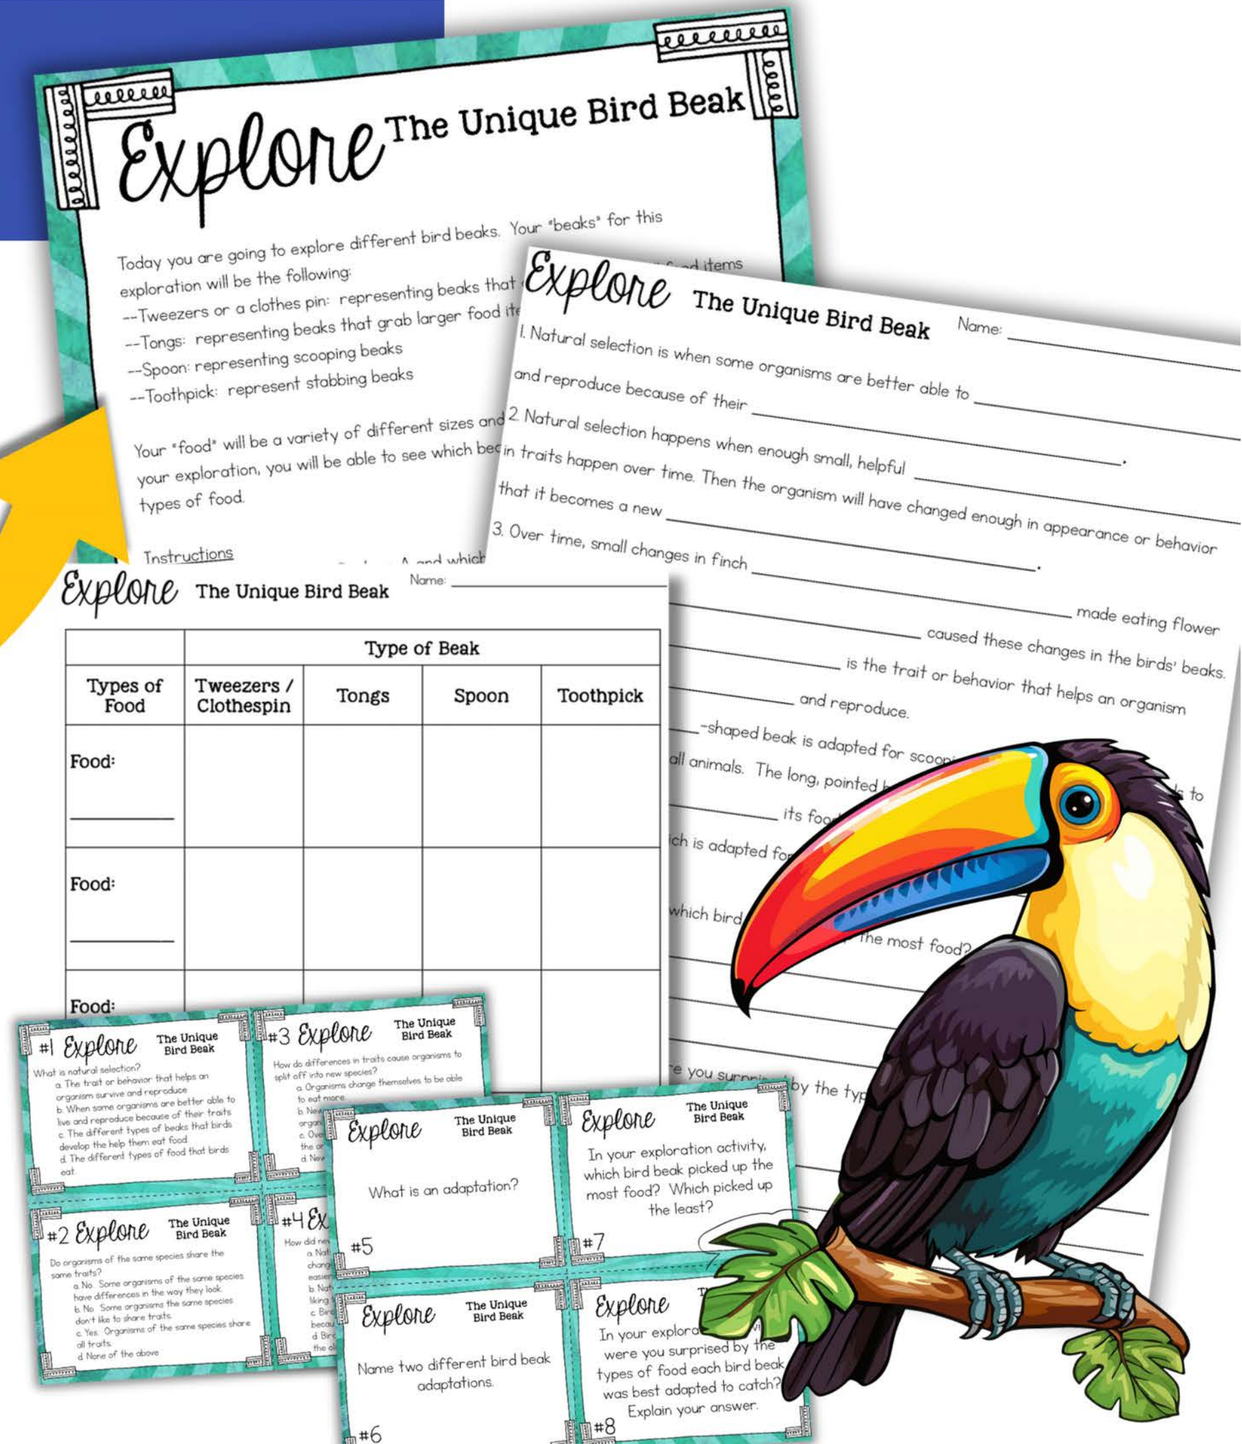

EASY TO USE

Your students will follow directions to explore bird beaks using different types of materials to represent each beak.

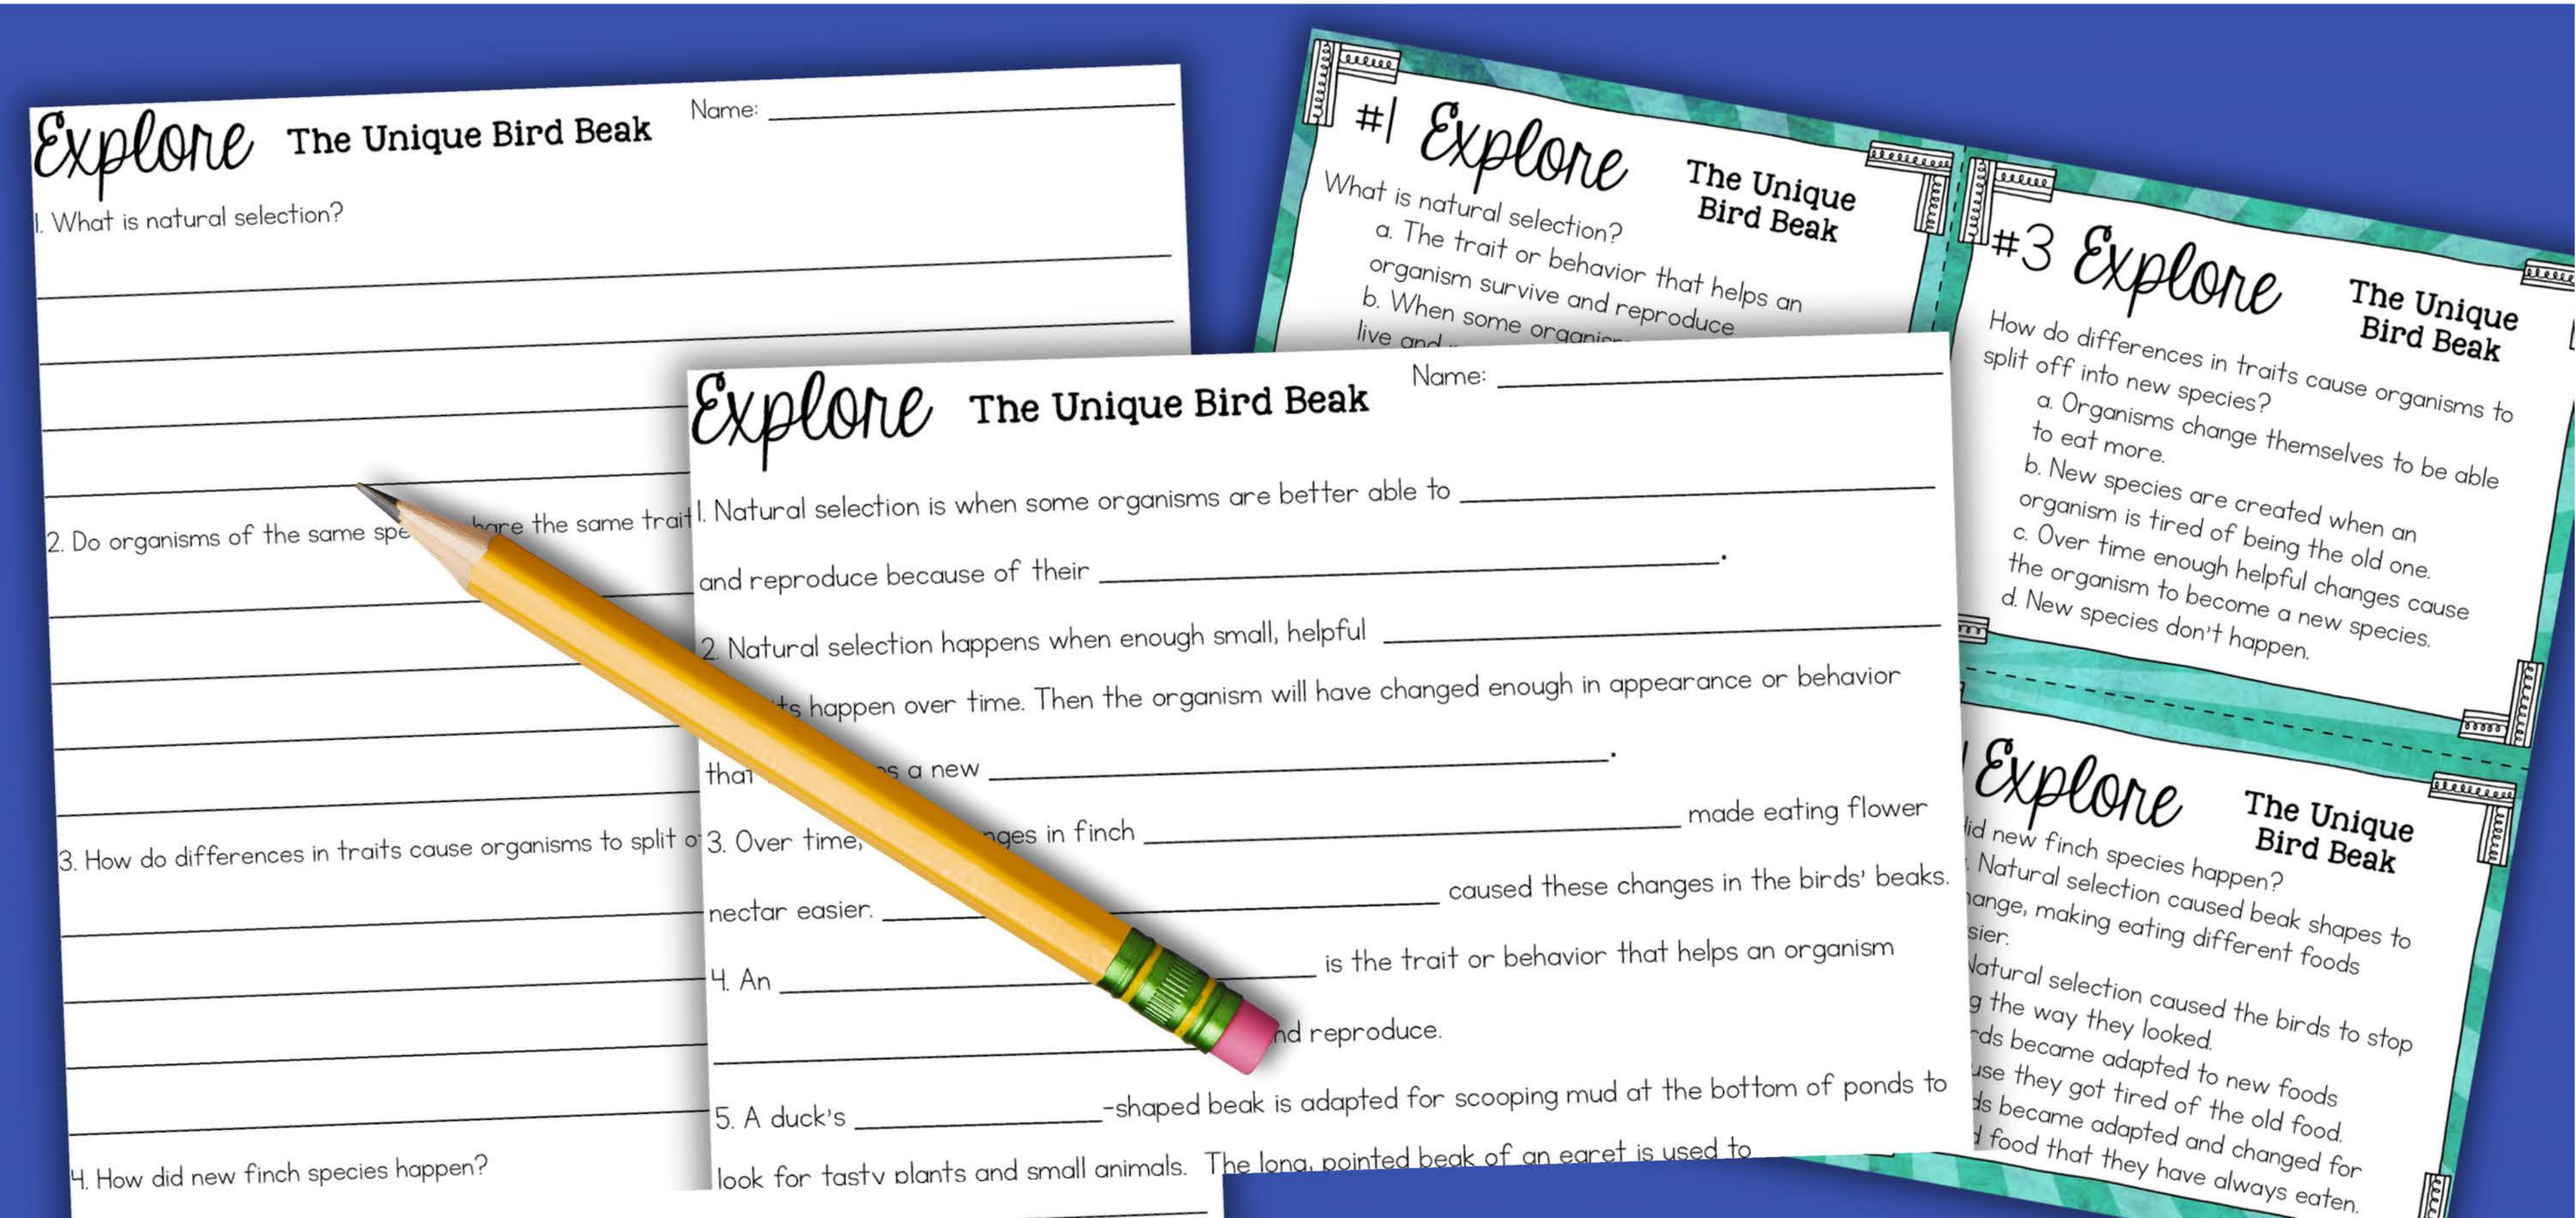

PLEASE NOTE: You will need these extra items to complete this activity.

Then your students will record their information in a table.

Then lastly they will answer questions based on their exploration activity.

DIFFERENTIATED QUESTIONS

Teachers love it

This is exactly what a lab resource should be: specific, fun, and able to be differentiated. Excellent product!

This is an EXCELLENT resource to help kiddos understand and practice the skills they need in order to succeed. Bonus points for such an engaging and entertaining lesson, too! I will be using it every year.

My passion is making learning accessible to all students. I love scaffolding learning., breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
