YOU WILL LOVE THIS BECAUSE

Includes Real-Life Applications

Reinforces rounding through meaningful, real-world scenarios to help students understand how rounding is used beyond the classroom.

Targets NBT-1 Rounding Standards

Provides direct, interactive practice rounding to the nearest 10 and 100 using varied strategies aligned to NBT-1 expectations.

Encourages Student Collaboration and Discussion

Puzzles are designed for group or partner work, promoting mathematical talk, reasoning, and peer learning through engaging formats.

TEACHERS LOVE IT!

Love it! The graphics are nice and the product is engaging and great for instruction. Thank you!

Ryan H.

My small groups had fun working on the puzzles. The pieces are large enough for students to work on the floor. Lots of pieces but everyone is able to participate and learn. Thorough job!

Lisa W.

My passion is making learning accessible to all students. I love scaffolding learning. Breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
