

Four main sections

each with
many
options

SCHOOL GOAL

My goal is _____

How will I know I reached my goal?

My first step is _____

I will check in with my goal on _____

SCHOOL GOAL

My goal is _____

I know I reached my goal because _____

My first step is _____

I will check in with my goal on _____

glue

ONAL GOAL

I am good at _____

I want to work harder at _____

glue

Olivia 'S GOALS

Teacher Notes

This craftivity is a fun way for students to display the goals on which they're working. There are many options. Choose the sentence frames and format that fits your classroom and your students.

How to use the resource

Choose a circle from each BLUE section:

- First, Outer Circle - School Goal (s)
- Second Circle - School Goal(s)
- Third Circle - Personal Goal (s)
- Center Circle & Arrow with words or picture

The YELLOW dividers are different options within each section, for instance, singular or plural goal (s) and a message at the bottom of the circle. Most sentence frames are repeated within each YELLOW divider.

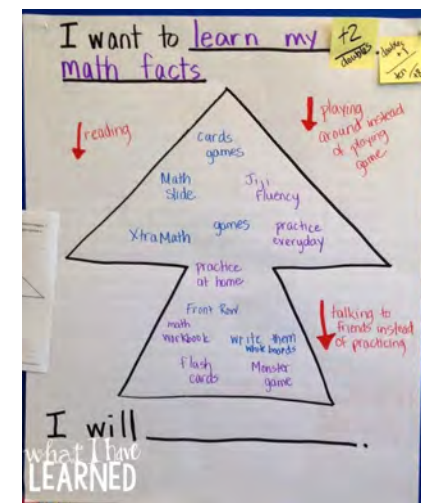

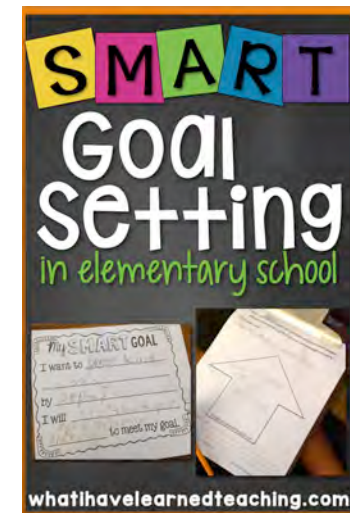

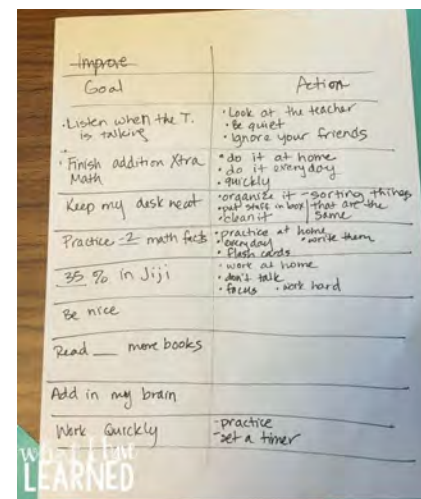

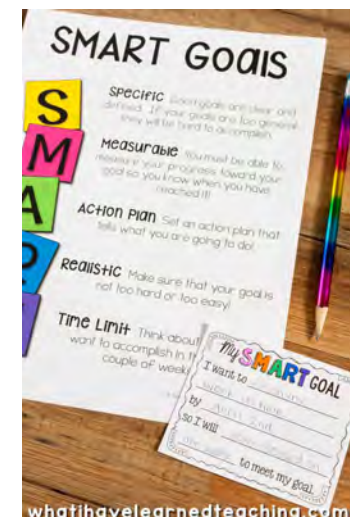

Students can choose multiple circles from each section. To assemble, glue them together in the glue area.

Work with students on determining goals and action steps. This can be done via whole class instruction, in small groups or individually. Also included is a Powerpoint file where you can edit the cut & paste "I want to / so I will" statements.

To see lessons on SMART Goal Setting, check out the blog posts by clicking on the images on the right.

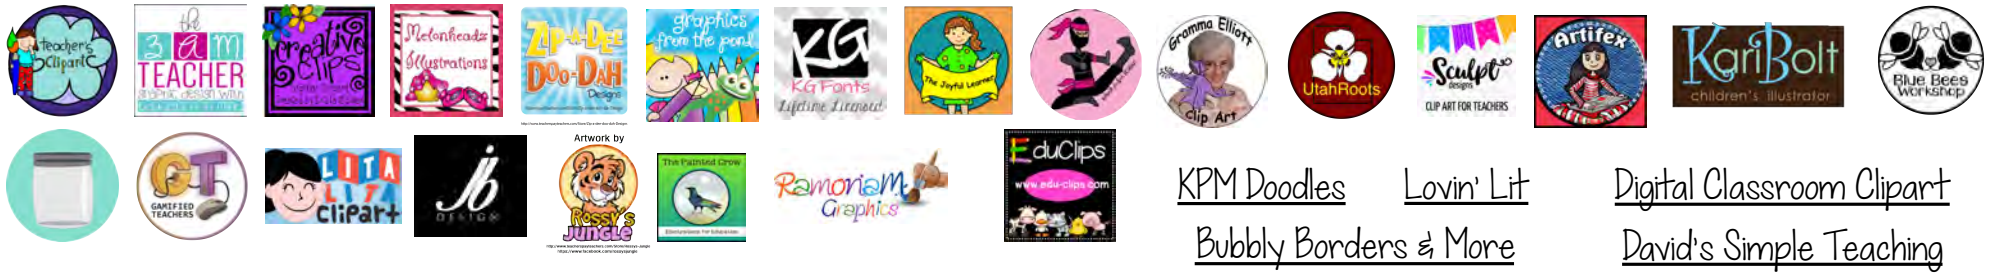

If you would like additional sentence frames, please email me (jessica@whatihavelearnedteaching.com)

To assemble the craftivity, place the circles on top of each other in order. Match the glue areas. Place a small amount of glue in the glue area and place the center circle and arrow over the glue areas. The arrow holds the pieces together. Once glue is dry, fold back each circle to the right to read the circle below it.

WHAT I have
LEARNED

WORD PROBLEMS	CURRICULUM MAP TEMPLATE	ADDITION & SUBTRACTION
This is perfect for teachers whose students struggle solving word problems. Have you ever thought of removing the numbers from word problems? Great for first and second grades.	Do you struggle with long range planning? This curriculum map template will get you started on planning for your whole year!	Two-digit addition and subtraction can be tricky for students. Here is a sample of resources to help them explore different models and strategies.
