MULTI-STEP WORD PROBLEMS

Problem Four

Name: _____

Part 1: You have lights to hang up on your Christmas tree, but they aren't working. You need to replace 3 of the *light bulbs* to get them to work. Which would be cheaper, to get three bulbs or a new *string of lights*? Why?

Part 2: What if you only needed to replace 2 of the lights. Would it be cheaper to replace the lights or get a new string of lights? Why?

Name: _____

mas tree?

Part 3: Show one combination of money that the clerk could give you.

PRACTICE ADDITION & SUBTRACTION WITH MONEY

Problem Three

Name: _____

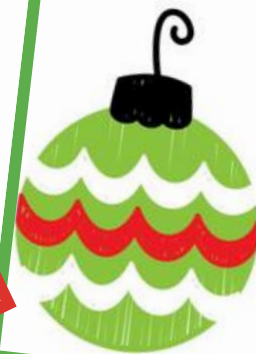

Part 1: You want to buy a red ornament for your brother and a green ornament for your sister. How much do they cost all together?

Part 2: You want to get one more green and one more red ornament so they both get one of each color. How much would that cost?

Part 3: You have three dollars. Do you have enough money? If not, how much more do you need to borrow from your mom and dad?

red ornament
59¢

green ornament
