2 SETS OF COIN IDENTIFICATION

SIMPLE & CHALLENGE CARDS

MULTI-STEP WORD PROBLEMS

Name: _____

Problem Five

Part 1: You need to buy Thanksgiving dinner and buy one of everything. How much does it cost?

Part 2: If you only have dollar bills (no coins), how much do you give the clerk? How much change do they give you back?

Part 3: If you only have a $10 bill, how much change would you receive? Explain how you figured it out.

Name: _____

much do they cost all together?

have a lot of people coming for Thanksgiving dinner and want to get one more apple pie and one more pumpkin
. How much would that cost?

Part 3: The grocery store is having a sale: buy three pies and get one of equal or lesser value free. Which pie would be free, the apple or the pumpkin? How much would the four pies cost altogether? *Remember, you only have to pay for three of them.*

PRACTICE ADDTION & SUBTRCTION WITH MONEY

Name: _____

Problem Two

Part 1: How much money do you need to purchase the *green beans* and *mashed potatoes*?

Part 2: You give the clerk 5 dollars, how much change do you receive?

Part 3: Show one combination of money that the clerk could give you.
