TEACHERS LOVE IT!

This was a great end of the year project that students could work on at the end of the year whenever we had extra time. They all turned out great and were such a cute keepsake!

Trista K.

My students loved this resource. It was fun for them to complete and a great way to wrap up the year.

kim r.

My passion is making learning accessible to all students.
I love scaffolding learning, breaking down the concepts and building them up so that students can see the connections.
I love figuring out the small components that build up to the big ideas and helping students see it all.
