TEACHERS LOVE IT!

This resource helped my students practice phonics skills and provided plenty of options for practice so that we could vary their activities. I appreciated this resource very much!

Carrie S.

This bundle is AMAZING!! There are so many activities for students to learn and practice blends during instruction, center work or homework. The activities are engaging and build on their understanding of phonics skills, writing and comprehension of words, especially words with blends. This whole bundle is very well done and provides a TON of very useful activities and resources. Thank you!

My passion is making learning accessible to all students. I love scaffolding learning, breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
