Challenge - Two Items

2 SETS OF COIN IDENTIFICATION

Name: _____

Problem Three

Part 1: You want to buy a *snowflake hat*, *blue sweater*, *earmuffs* and *snowflake mittens*. How much do they cost all together?

Part 2: The store is having a sale: buy three items and get one of equal or lesser value free. Which item would be free? How much would the four items cost altogether? *Remember, you only have to pay for three of them.*
