With this fun Halloween Booklet students choose a costume and reflect on what makes their real life special. The booklet comes in two versions: a horizontal two-page version and a booklet, tabbed version with more room for writing and drawing. Included are 47 different costumes in both boy and girl versions. Also included is a blank version where students can draw their own Halloween costume.

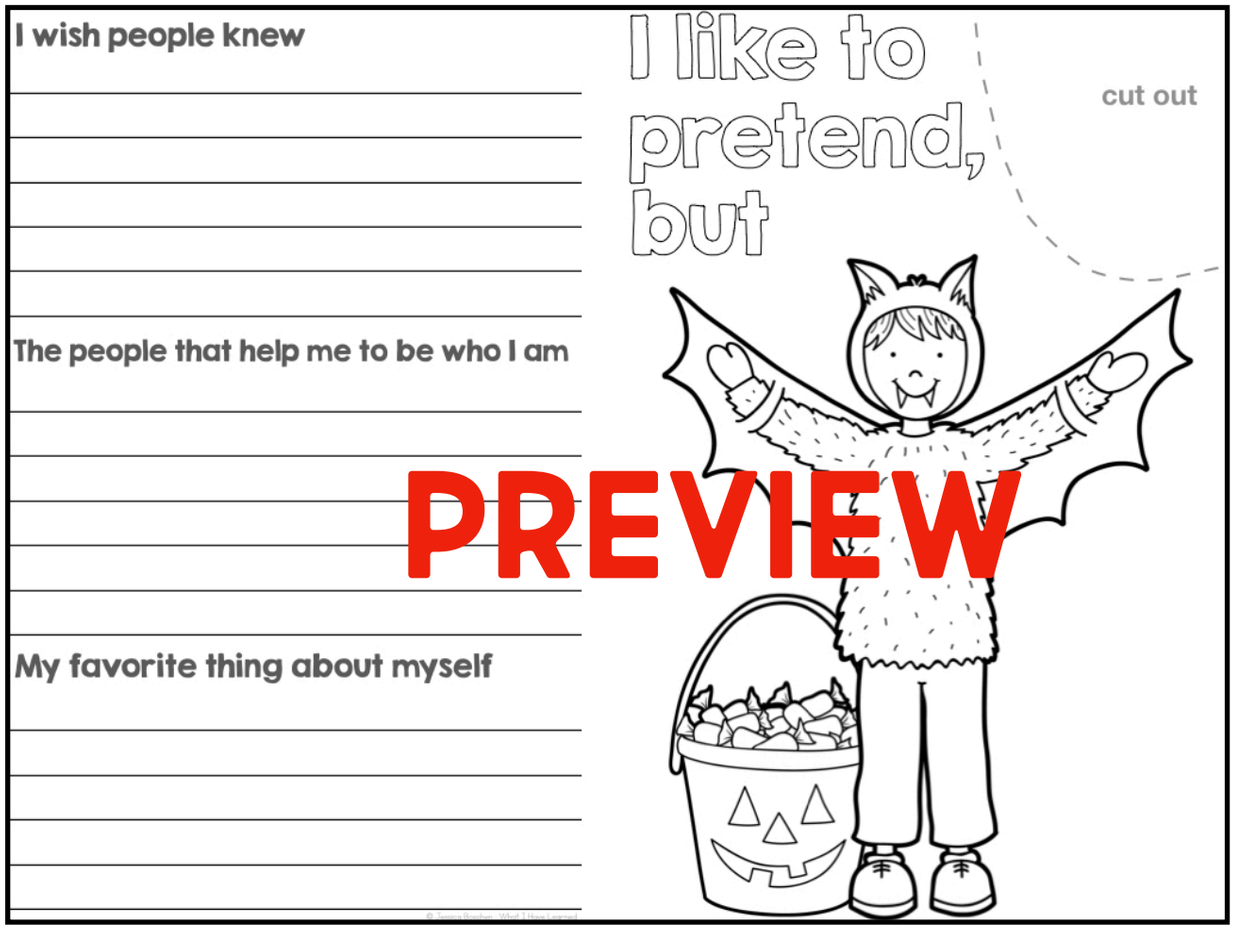

Photocopy the vertical version with lines or with a drawing box. Photocopy different first page pages so that students can color their own costume. Also included is a blank version where students can draw their own costume.

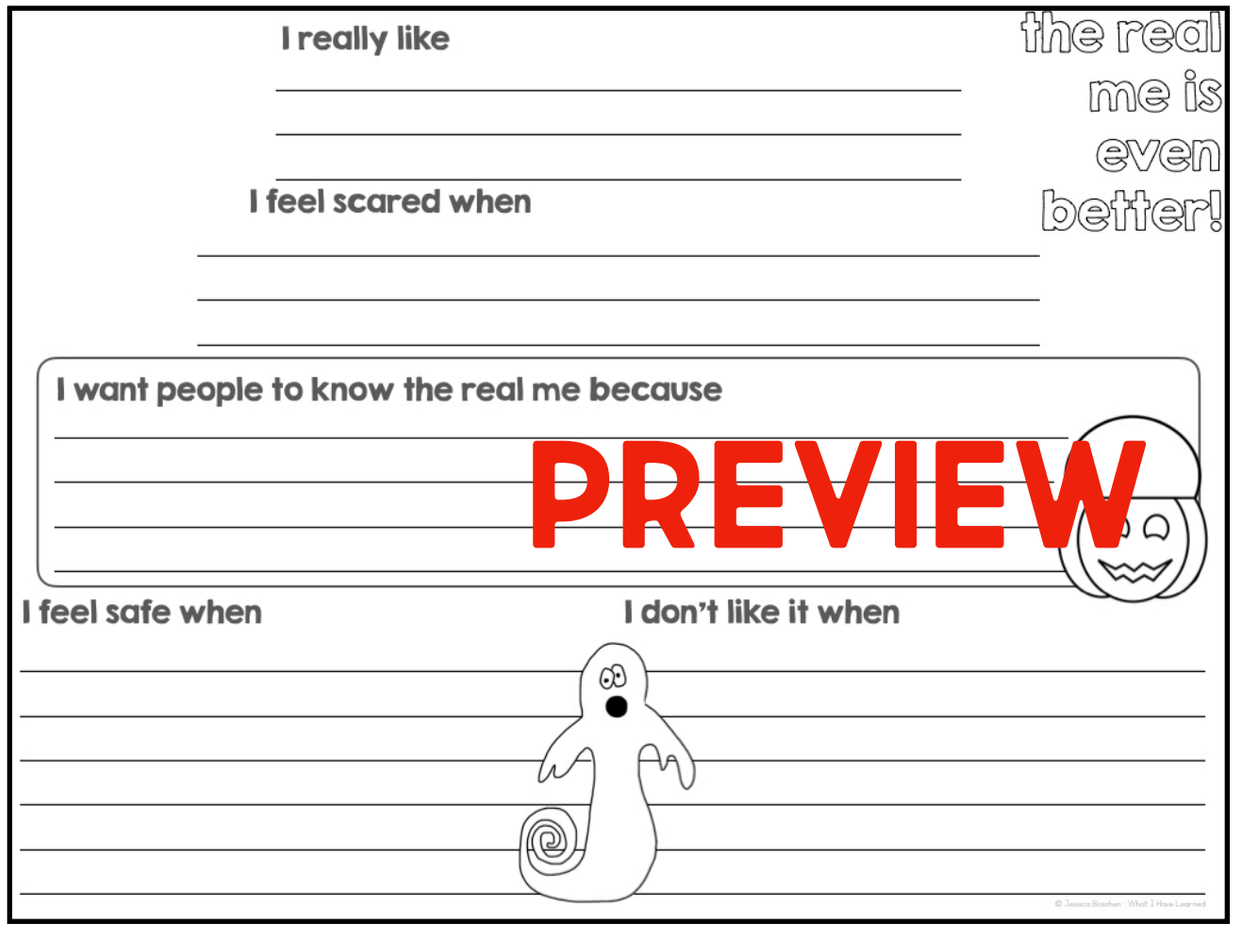

VERTICAL TABBED VERSION, COMES IN TWO FORMATS, WITH LINES ONLY AND WITH PICTURE BOXES

TEACHER NOTES

Photocopy the horizontal version back-to-back. Cut out the upper right area to reveal the second set of words. This version will save on paper and could be a quicker and easier project for students.
