How to Play

1. Each player chooses a different color. One player will create a pathway from one black dot to the other black dot and the other player from one white dot to the other white dot. Each player gets to choose where to start at the top or bottom.
2. Player one reads a word and colors a square. The goal is to be the first to make a pathway across the board. Players switch back and forth, reading words, coloring boxes, and making the pathway following the RULES.
3. RULES: The squares you color must share a side, not only a corner. You cannot cross the other player's pathway.
4. The first player to get to the other side wins.

Covers 9 Key Phonics Patterns

From CVC words to multisyllabic decoding, this set supports all essential reading foundations.

Fun, Engaging & Student-Friendly

Partner games keep kids motivated while practicing phonics in meaningful contexts like words and sentences.

Easy Differentiation for All Levels

Leveled word sets move from simple to complex, making it perfect for varied student needs.

TEACHERS LOVE IT!

Lot's of great games! My second graders loved playing them. I loved they were getting a great review!

Jill G.

Will use this if my position changes to Instructional or Gen Ed. This was perfect for what I needed at that time.

Kimberly K.

My passion is making learning accessible to all students. I love scaffolding learning, breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
