# USE THE STATIONS FOR

Learning Stations

Use all eight stations or just a few as learning stations that students complete at their own pace.

Science Centers

Set up a rotation where students visit each center to complete the activities.

Whole Class

Use the activities in a whole class format.

Small Group

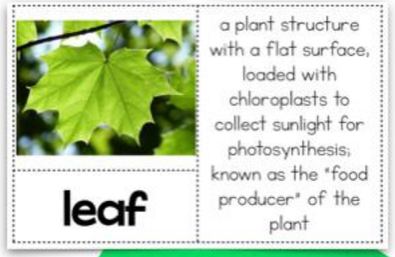

Use the activities with a small group who need extra help.

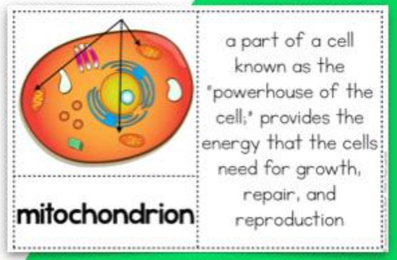

**104 STATIONS**

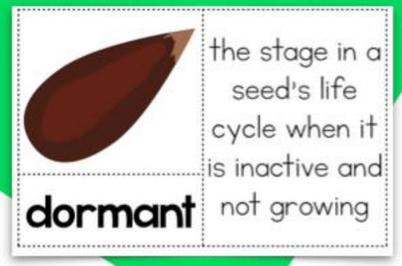

**MEET ALL STANDARDS**

# VOCABULARY

- ✓ Three-part vocabulary cards with images
- ✓ Larger cards without images

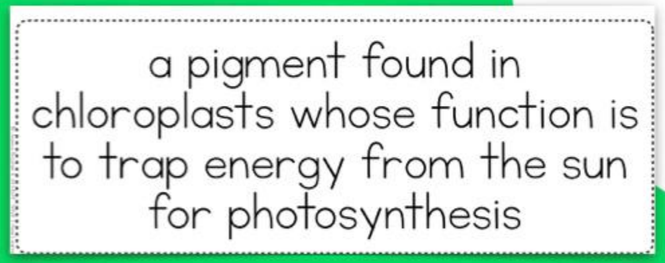

# BIG IDEA POSTERS

- ✓ Color photos
- ✓ Statements that summarize key concepts in each unit

**BUNDLE ONLY**

# READING PASSAGES

- ✓ 6 Reading Passages per Topic
- ✓ All stations have a unique reading passage, but WATCH and PLAY
- ✓ Provides all scientific background knowledge for each station
- ✓ Available in two formats
- ✓ Includes Comprehension Questions

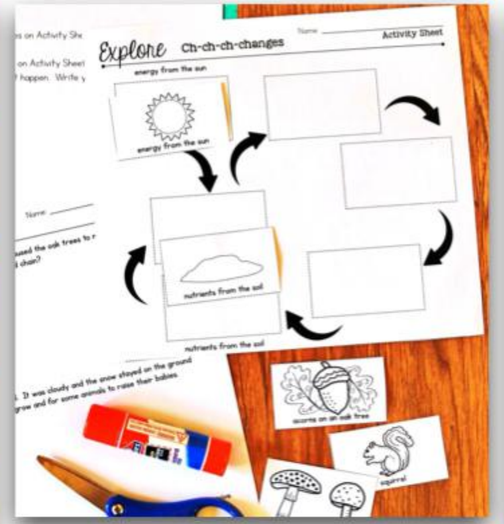

# HANDS-ON ACTIVITIES

- ✓ Use household easy-to-gather materials
- ✓ Meet the needs of different learning styles
- ✓ FUN & ENGAGING

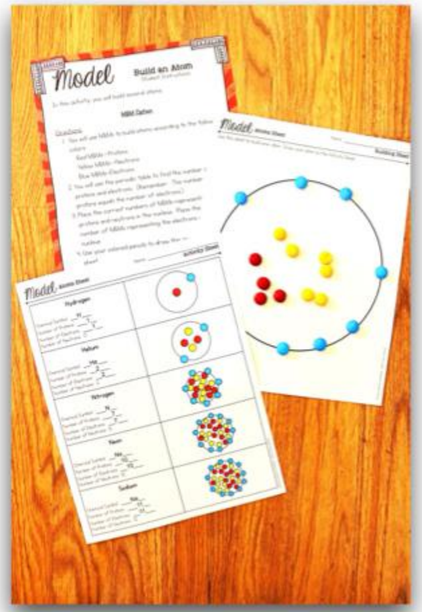

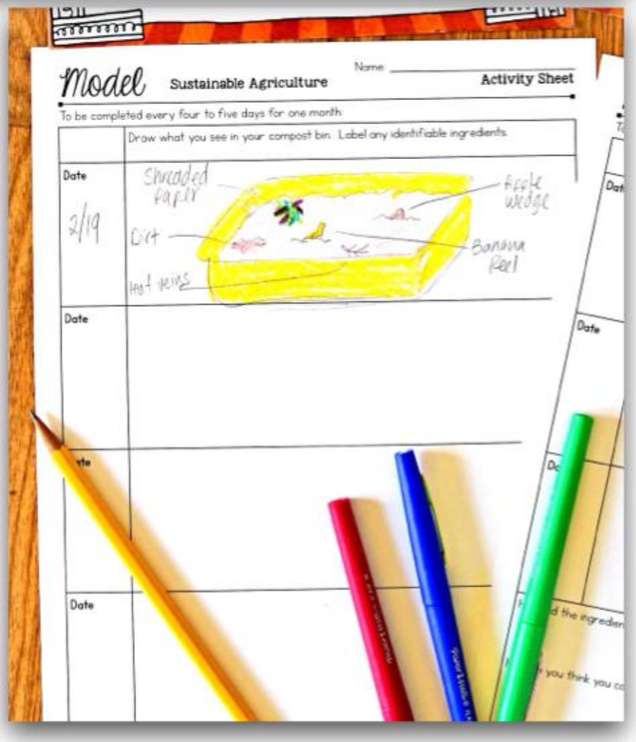

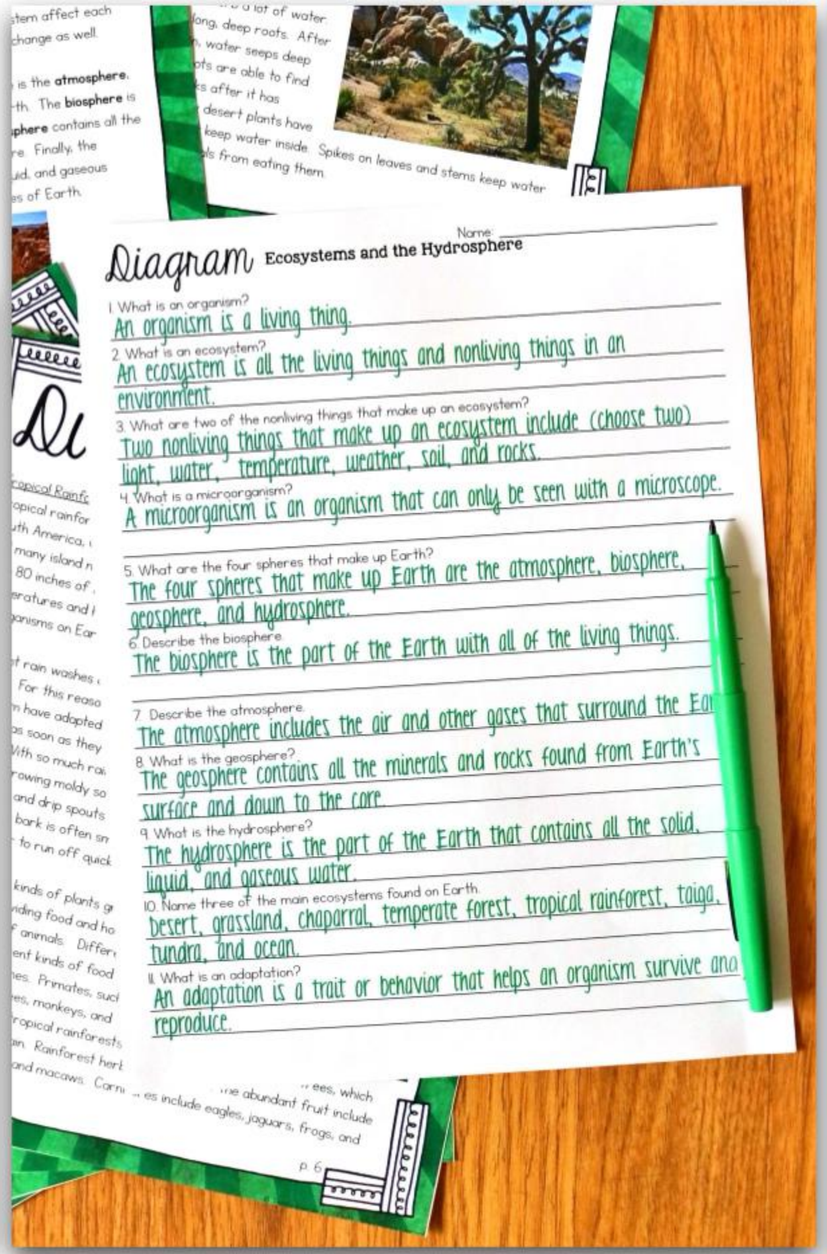

# DIFFERENTIATED

**ANSWER KEYS PROVIDED**

- ✓ Short answer
- ✓ Fill-in-the-Blank
- ✓ Multiple Choice

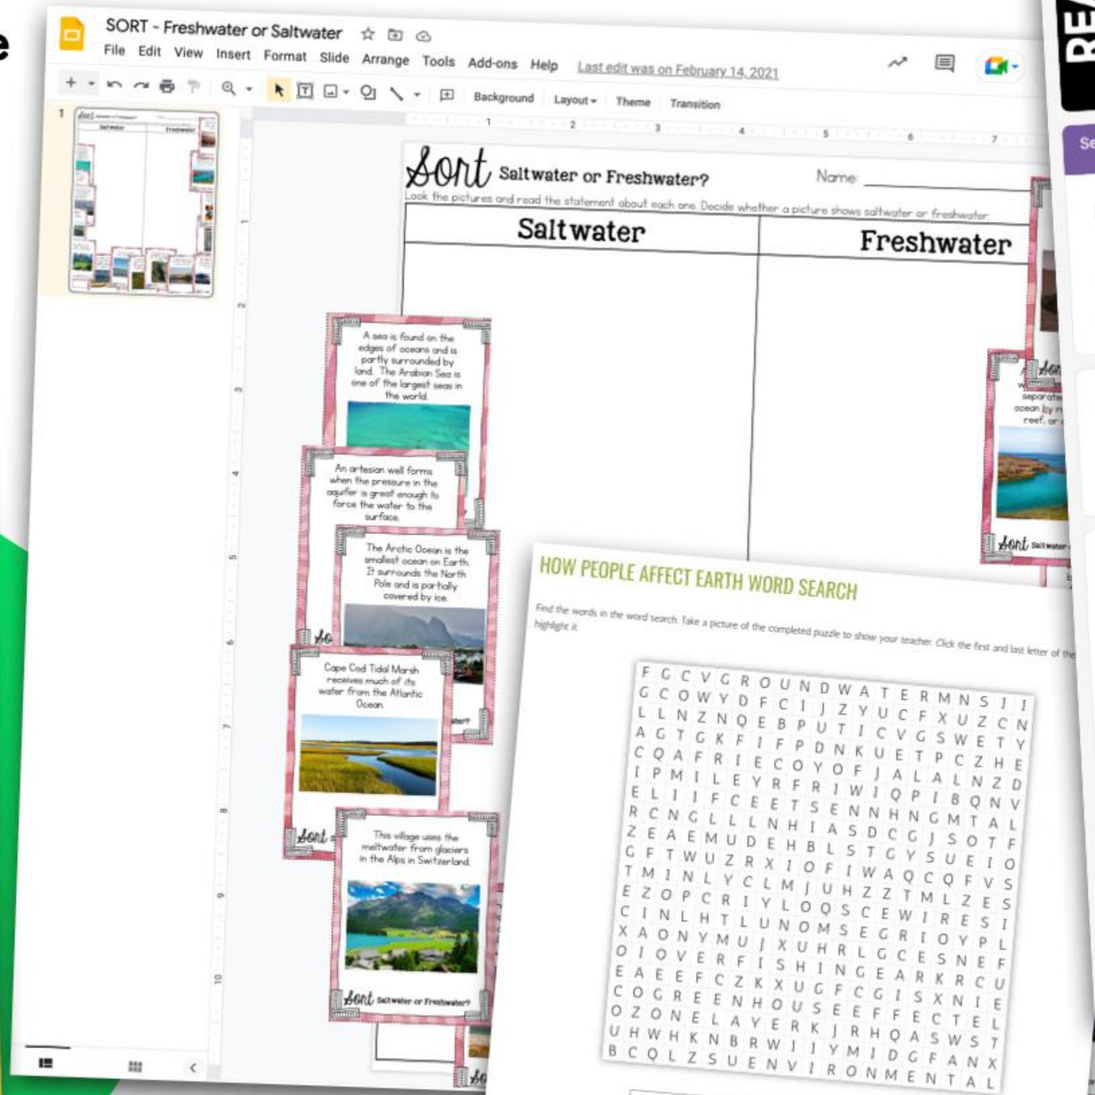

# DIGITAL VERSIONS

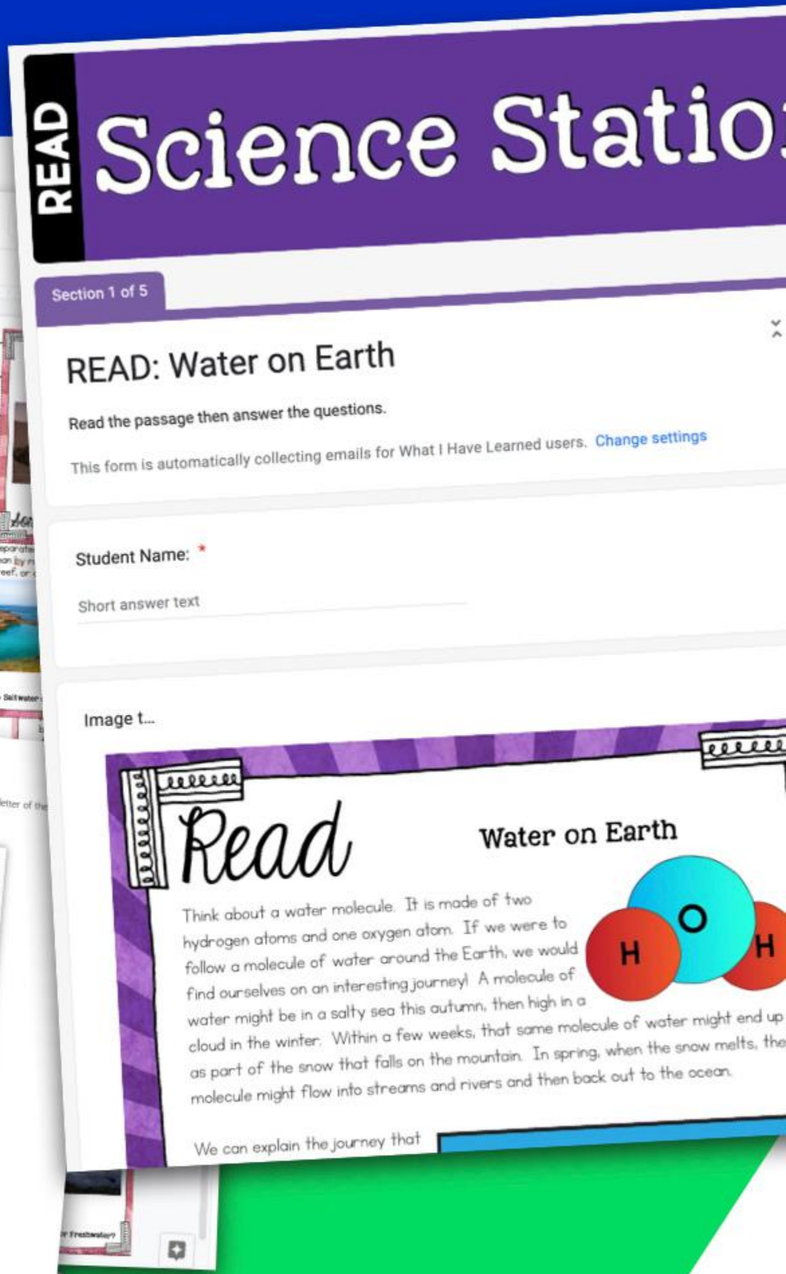

- ✓ Google Forms and/or Google Slides for every station
- ✓ Videos
- ✓ Video Games
- ✓ Digital Crossword Puzzles & Word Searches

# Teachers love it

Wow! This bundle has saved my sanity for my first year teaching fifth grade science! The students love all the activities and it really builds up their knowledge and ability to applied the correct vocabulary.

My students and I love this resource! It is a great supplement to the curricular materials I already use. Students are engaged with the variety of activities. I love the inclusion of informational texts for many of the activities. I do wish each topic included one file with all 8 stations in it for easier and faster printing (and no repeats of the first few pages of each PDF). I appreciate the varied options for the responses in the activities - I can differentiate to fit the needs of my students easily with these options.

My passion is making learning accessible to all students. I love scaffolding learning., breaking down the concepts and building them up so that students can see the connections. I love figuring out the small components that build up to the big ideas and helping students see it all.
