Part-Part-Whole Dot Flash Cards

Flash Cards for Part-Part-Whole Relationships
using a variety of Dot Arrangements for Sums 11-20

Part-Part-Whole Dot Flash Cards

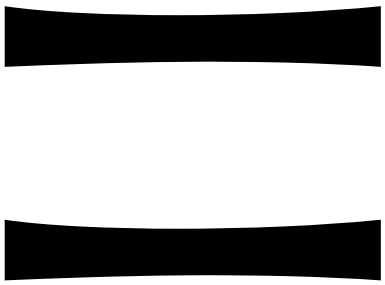

These were created full page. Either print full page or print half page. To print 1/2 page, in Preview, go to layout and set the pages per sheet to 2. In Acrobat, click on multiple and set the pages per sheet to 2. Individual or take home cards can be printed four to a page.

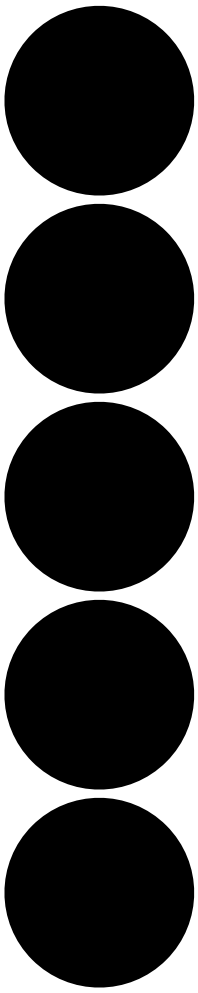

Cut on the dotted line to fold back either addend or fold back the sum. Note, not all dotted lines are in the same place; do not print back to back nor cut multiple sheets at the same time. Alternatively, hold your hand over the number or dot image you want to cover up.

There are several dot arrangements for the same set of addends. One set mirrors a ten frame arrangement, the other sets assist with subitizing. If you want an additional dot arrangement, please let me know. I'm happy to add this resource.

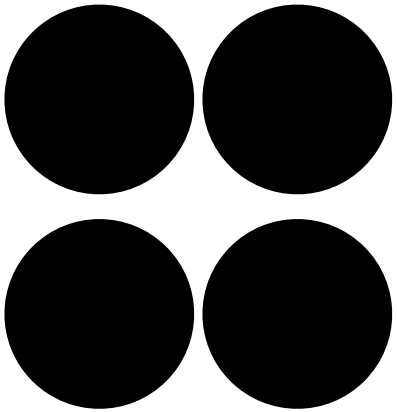

The dot images could also be used individually (without the other part and whole) for dot talks and practice with subitizing.

Extras

These extras have addends that go beyond the traditional math facts, for instance, 11+1, 11+2, etc.

Honestly, I started making these extras before I realized that they weren't math facts. Instead of deleting them, I decided to put them in a separate section for your use, if desired.
