Word Family & Making Words Wheels

Jessica Boshcen
What I Have Learned

Teacher Notes & Assembly Directions

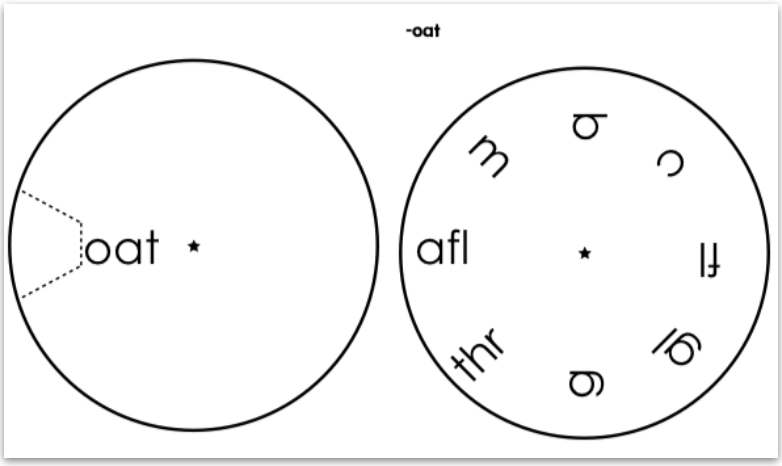

Each wheel is 8 inches in diameter and created with Century Gothic font. Most Word Family Wheels have 8 words on them; however, for some, there are not 8 common words that make that word family. The Make Word Wheels have 8 onset and 8 rimes, for a variety of real and nonsense words.

I created these wheels for use with my second graders reading below grade level, so I included quite a few blends in the onset portion. If you would like wheels with different letter combinations, please let me know. I'm happy to add to the product.

Print on cardstock. Either print one per page or two per page to make them half the size (4-inch wheels). I print them two per page for my second graders. To print two per page, go to layout and select "2".

Cut out the circles and cut out the dotted lined wedge on the top circle. Alternatively, do not cut out the bottom circle, but only the top circle and wedge for easier spinning. Laminate if desired.

Puncture the center star of each circle with scissors or other sharp object. Put a brad through the center of the circles to fasten them together.

For the Making Words Wheels, cut the octagons out and attach in the middle. When cutting the dotted line octogon, cut off the line, close to the letter.

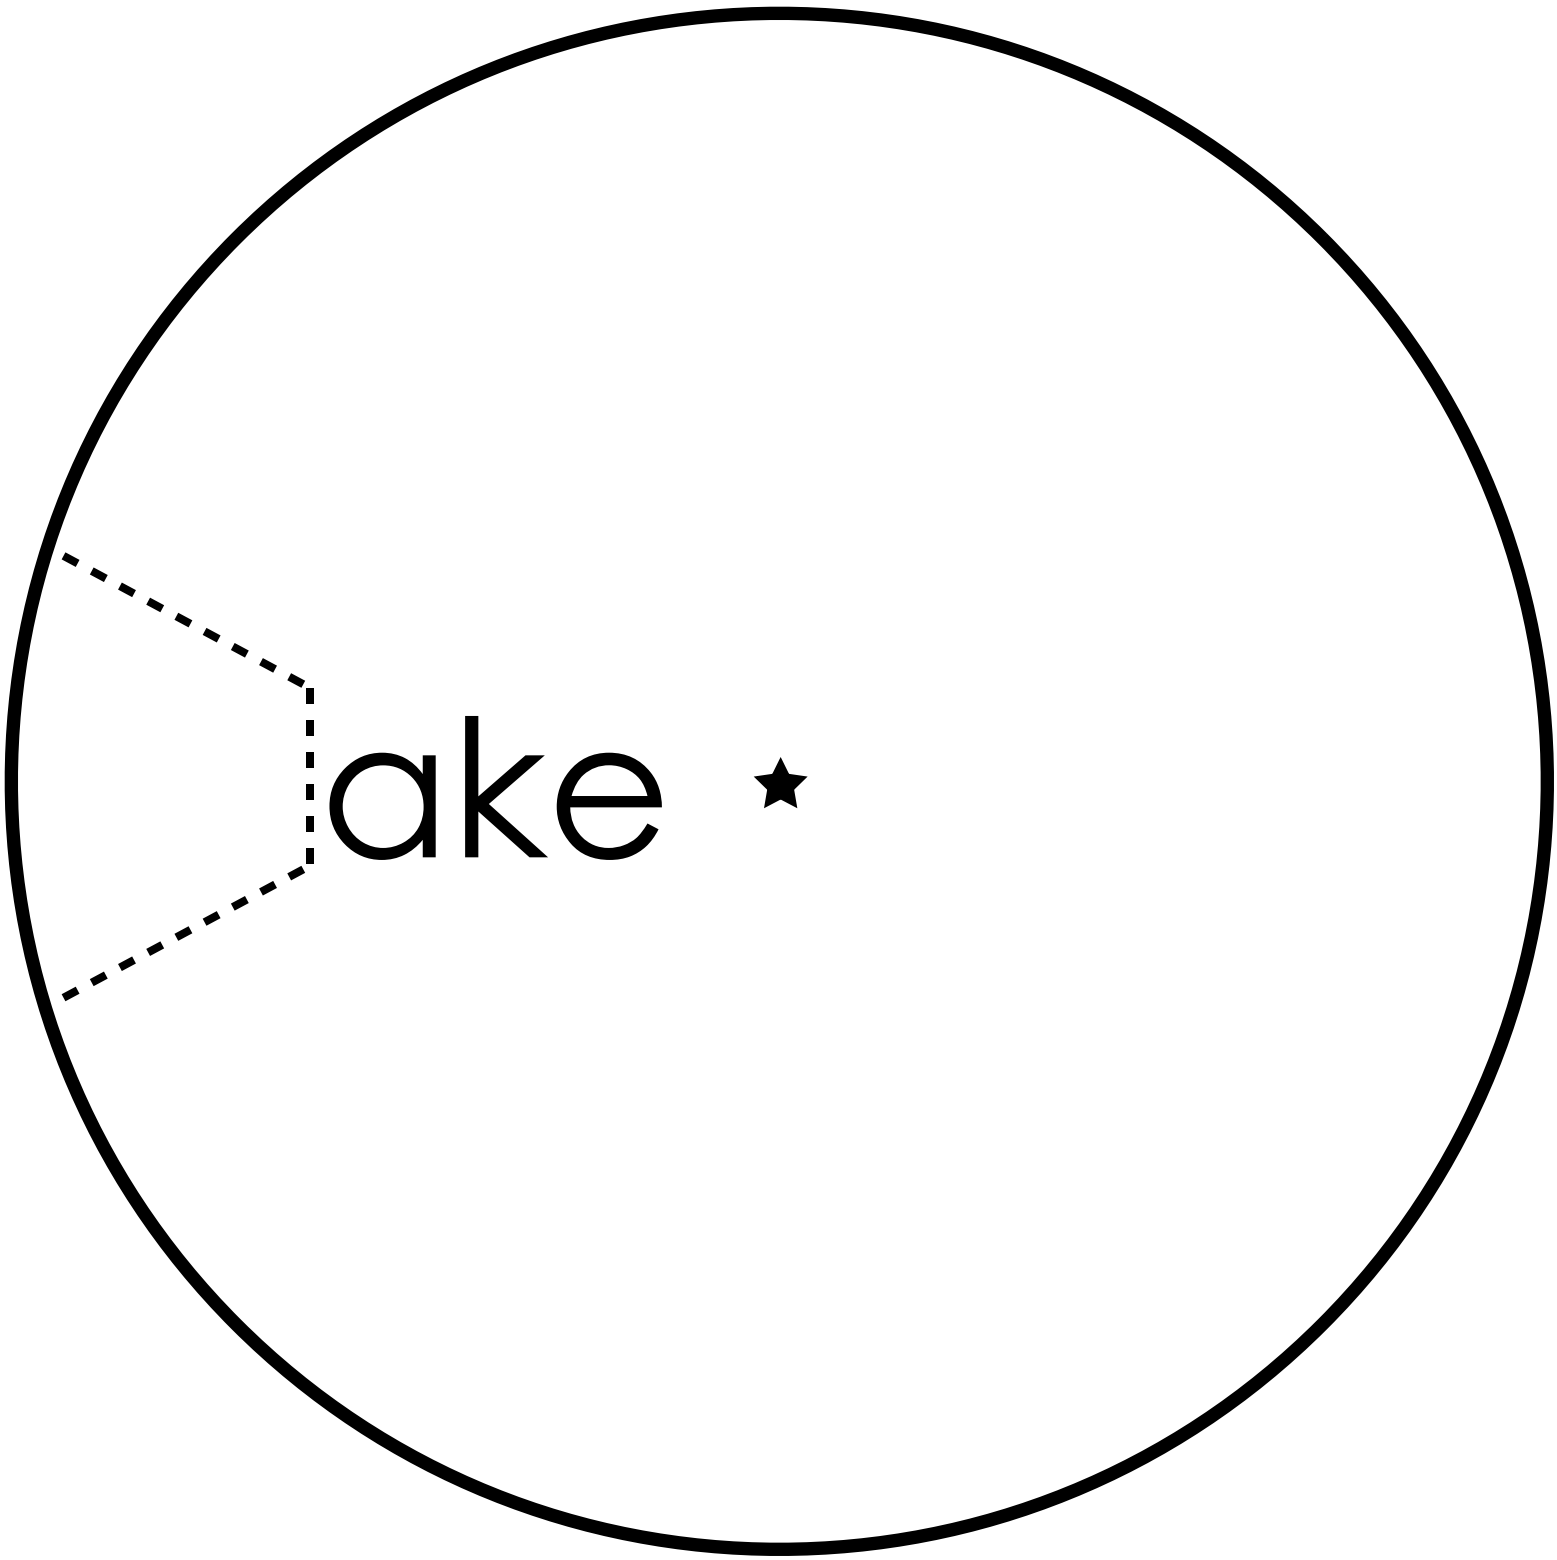

VCE Long Vowel Word Family Wheels

-ake	-age	-ate	-ale	-ame
awake	cage	crate	bale	blame
bake	engage	date	male	came
brake	rage	gate	pale	flame
fake	sage	grate	sale	frame
